

REMARKS

By this Preliminary Amendment, the Specification has been amended, claims 6-11 have been canceled, and claims 16-29 have been added. Therefore, claims 1-5, 12-15, and 16-29 are pending, with claims 1, 12, 13, 14, 15, 16, 27, 28, and 29 being in independent form.

Attached hereto is a marked-up version of the changes made to the Specification by the current Amendment. The attached page is captioned **"Version With Markings to Show Changes Made."**

Prompt examination and allowance in due course are respectfully solicited.

Respectfully submitted,

MINTZ, LEVIN, COHN, FERRIS, GLOVSKY, AND POPEO, PC

VERSION WITH MARKINGS TO SHOW CHANGES MADE

The paragraph beginning on page 15, line 18, has been amended as follows:

--In step 912, device 202 determines whether user 110 has selected one of the buttons 802-810 or has selected off-button 609 or has selected to listen to a new audio channel. If no button is activated and if user 110 hasn't selected to listen to a new audio channel, control passes back to step 910, otherwise control passes to step [912] 913 (next-button activated 802 or user 110 has selected to listen to a new audio channel), step 914 (purchase-button 804 activated), step 918 (more-button 806 activated), step 920 (like-button 808 activated), step 922 (dislike-button 810 activated), or step 924 (off-button 609 activated).--

The paragraph beginning on page 16, line 2, has been amended as follows:

--If user 110 selects next-button 802 or user 110 selects to listen to a different audio channel (e.g., user 110 selects a new audio channel from box 602 and then activates listen-button 603), device 202 stops reproducing the current sound recording [(step 912)] (step 913). Control then passes back to step 902 where another sound recording is selected based on the currently selected audio channel.--
